

An innovative voice solution supporting workers of all abilities.

Language is an effective means of communication.

"Gabi, make 10 color copies, double-sided, and stapled."

Gabi Voice allows workers of all abilities to access their multifunction printer's copying, scanning, faxing, and secure printing functions using their voice. The device is controlled using natural language and simple commands including a request for service.

gabi | voice

Why Gabi Voice?

Ensure legislative requirements: Gabi Voice is 508c compliant for use by employees with disabilities.

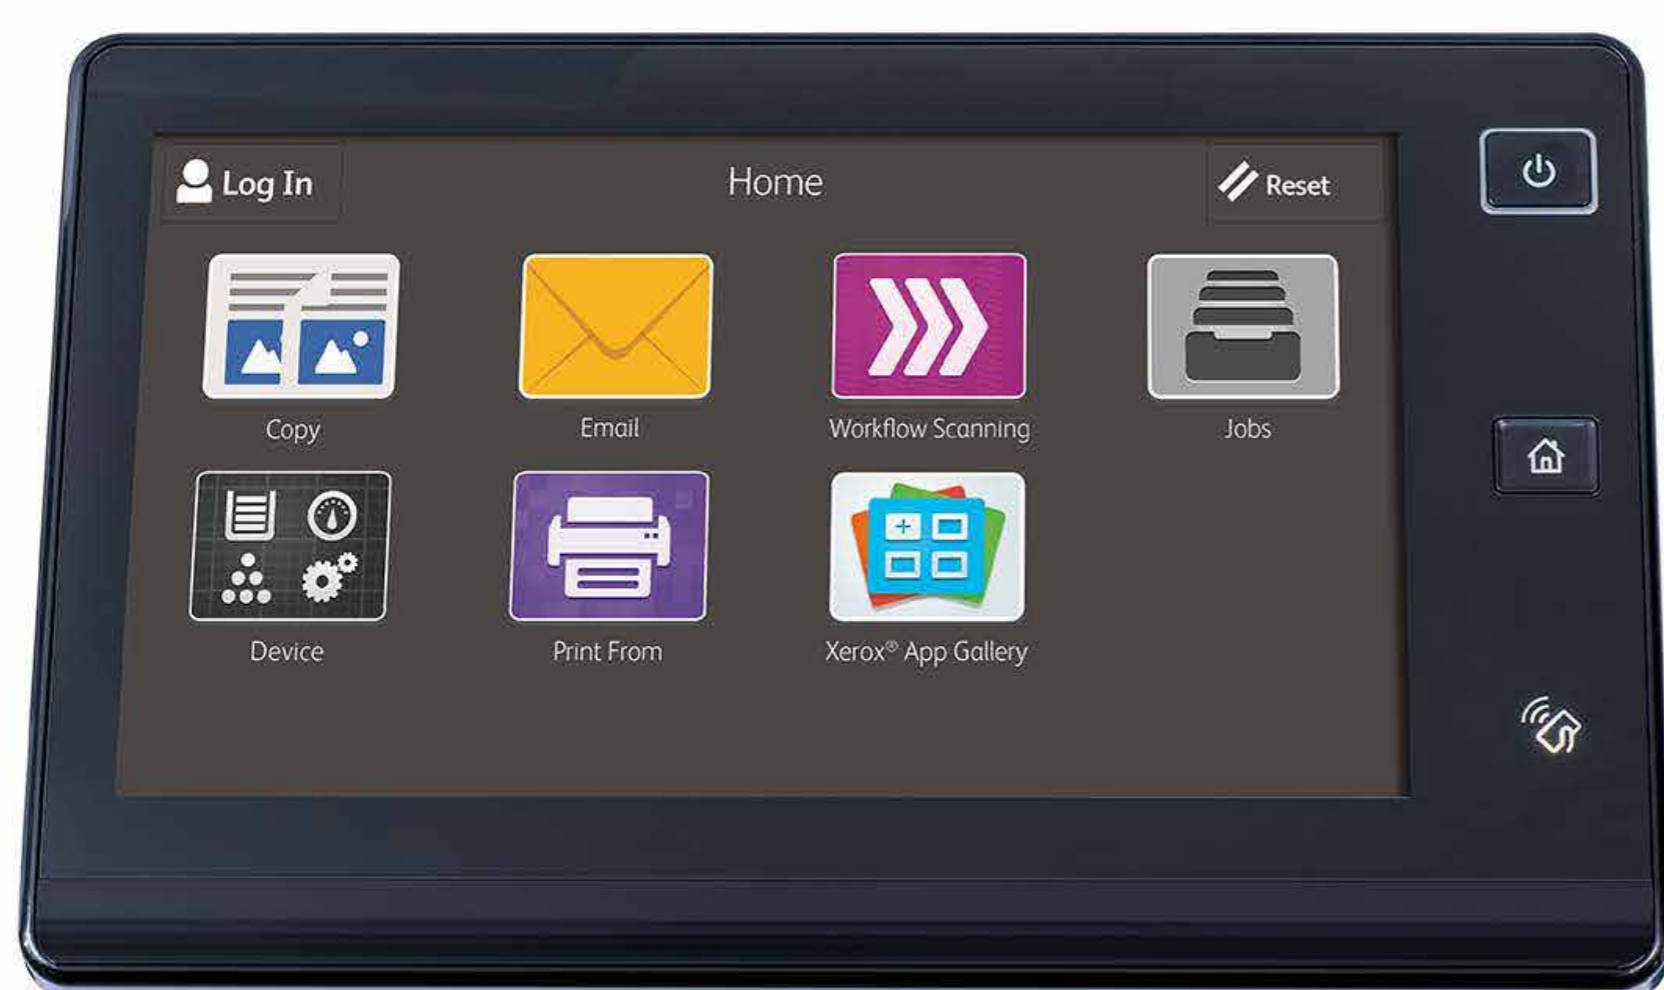

Enable workplace independence: No commands to memorize. Basic commands are spoken in any order for the desired outcome.

Increase productivity: Voice commands save time. No need for manuals, icons, or menus.

Stay secure: Powered by IBM Watson, Gabi voice commands are interpreted securely and accurately. No personal information is exchanged or stored with this solution.

Gabi Voice is convenient: Place a service call while at the device. Gabi gathers the pertinent service information along with your serial number and emails your service provider.

Currently utilizing English-only commands, Gabi can help with conveying toner and paper levels before performing large jobs.

Current Xerox® Devices Supported:

- Xerox® AltaLink® C8030/C8035/C8045/C8055/C8070
